

SUJAY ACHARYA

Agartala, Tripura, India | Contact : +91-8414833846 | Email: sujayacharya189@gmail.com [\[Portfolio Website\]](#) | [LinkedIn](#) | [GitHub](#)

EDUCATION

Holy Cross College | Agartala, Tripura, India *B.Sc. in Computer Science* (Jul 2024 – May 2028)

- **Cumulative CGPA:** 8.5/10 (Till 3rd Semester)

TECHNICAL SKILLS

- **Programming Languages:** Python, C, PHP, JavaScript, SQL
- **Web Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, Flask, REST API Integration
- **AI / Machine Learning:** Scikit-learn, Regression Models, Data Preprocessing, Feature Engineering, EDA
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn
- **Tools & Technologies:** Git, GitHub, VS Code, Linux, Kali Linux
- **Core Competencies:** Data Structures & Algorithms (DSA), OOP, DBMS, Computer Networks, Operating Systems

PROJECTS

Student Performance Analytics & Prediction System | *Machine Learning* | [\[\[GitHub Link\]\]](#)

- Built an end-to-end machine learning pipeline to analyze and predict student academic performance.
- Preprocessed and engineered features from raw educational datasets using Pandas and NumPy.
- Trained and optimized a Logistic Regression model; evaluated performance using accuracy scoring and confusion matrices.

J.A.R.V.I.S. AI Assistant | *Full-Stack & Conversational AI* | [\[\[GitHub Link\]\]](#)

- Developed a full-stack, ChatGPT-inspired web application featuring real-time conversational responses via Gemini API integration.
- Engineered the backend using Flask and designed a responsive UI with HTML, Tailwind CSS, and JavaScript.
- Implemented session management, dynamic response rendering, and drag-and-drop file ingestion for document processing.

J.A.R.V.I.S. Voice Assistant | *Python Automation* | [\[\[GitHub Link\]\]](#)

- Created a voice-controlled desktop automation assistant featuring wake-word activation and hands-free control.
- Integrated speech recognition and text-to-speech synthesis APIs for natural human-computer interaction.
- Automated desktop and web-based tasks, including data retrieval, multimedia playback, and file processing.

User Management Portal | *Full-Stack Web Development* | [\[\[GitHub Link\]\]](#)

- Developed a responsive, database-driven user registration portal utilizing PHP and MySQL.
- Implemented secure authentication workflows, including input validation, password confirmation, and secure hashing.
- Designed front-end interfaces using Bootstrap and JavaScript to optimize user experience and data handling.

CERTIFICATIONS & ACHIEVEMENTS

- **Certification:** Web Development Certification (Covering HTML, CSS, JavaScript, and modern front-end design principles).
- **Open Source & Automation:** Developed custom Python automation tools for video processing and media scripting.
- **Technical Breadth:** Actively applying foundational knowledge across software development, machine learning, and cybersecurity fundamentals.
